

Find Your Perfect-Fit Shrink Sleeve & Tamper Banding Equipment

Start here to explore the process, prep your project, and get it right the first time.

Start with Your Product & Container

Why it matters: Impacts handling, sleeve tension, and shrink quality.

- **Type:** glass, plastic, aluminum
- **Shape:** round, oval, tapered
- Filled or empty during application?
- Stability or heat sensitivity concerns?

Define Your Application Goals

Why it matters: We match the solution to your branding and functional needs.

- **Application type:** Tamper band, full-body, overcap, multi-pack
- Perforations, registration marks, printed vs. clear
- **Type of film:** PETG, PVC, OPS

Understand Your Line Conditions

Why it matters: Seamless system integration with your upstream/downstream equipment.

- Target speeds (cpm)
- Conveyor style and layout constraints
- Product spacing, ceiling height, access

Environment & Utilities

Why it matters: Ensures reliable machine performance under your facility conditions.

- Power (115V / 230V / 480V), compressed air, steam
- Washdown, humidity, dust, caustic exposure
- Utility reliability and facility-specific conditions

Installation & Support

Why it matters: Sets you up for fast startup and sustainable success.

- Operator training, HMI familiarity, safety protocols
- Maintenance plans and long-term support

What to Expect from the Axon Equipment Process

DISCOVERY

We ask the right questions to understand your containers, application goals, and environment.

SOLUTION DESIGN

Our experts propose a tailored machine + heat tunnel (if needed), configured to your specs.

PROPOSAL & PLANNING

We provide a clear quote, scope of work, and recommended facility prep considerations.

DELIVERY & SUPPORT

We install, train your team, and provide U.S.-based service for long-term performance.

What can delay a project?

- Incomplete container specs
- Limited space not flagged early
- Utility capacity not verified early

We will help you identify these early so your system runs smoothly from the start.

Industries Served

- Food & Beverage
- Wine & Spirits
- Dairy & Ice Cream
- Nutraceuticals & Pharma
- Personal Care
- Household Products
- E-Commerce
- Contract Packaging
